DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 8-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Leonardis (U.S. Patent 5,107,654).

Leonardis discloses the base member (2), pairs of leg members (5) and cradles (7, 8, 9, 10) as claimed.

The material between the cradles meets the recitation of "horizontal support members disposed between the cradles."

Double Patenting

Claims 1-4 and 8-12 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-10 of U.S. Patent No. 6,663,316.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the structure claimed in the present application is identical to the structure in the prior patent.

Art Unit: 3671

Allowable Subject Matter

Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is 703-305-4549. The examiner can normally be reached on Monday through Friday, 9am-6pm.
